Education

University of Engineering and Management, Kolkata

Bachelor of Technology in Computer Science with Data Science

July. 2026 – May 2030

Kolkata, West Bengal

Experience

Freelance Web Development

Nov 2025 – Present

Freelance Web Developer

Newtown, Kolkata

- Independently designed and developed 5+ responsive, production-ready business websites for local enterprises, including food outlets, cafes, and salons, using React.js, JavaScript, HTML, and CSS.
- Consulted directly with business owners to understand their goals, branding, and target audience, translating requirements into clean, modern, and user-friendly website designs.
- Built fully responsive UI components and interactive layouts optimized for both desktop and mobile viewing, ensuring a seamless experience across devices.
- Leveraged AI-assisted development tools to implement backend functionality efficiently, allowing greater focus on frontend architecture, design quality, and user experience.
- Managed the complete project lifecycle independently, including client consultation, design, development, testing, and deployment, ensuring timely delivery for every project.

Projects

Personal Portfolio Website | *React.js, JavaScript, HTML, CSS*

2026

- Designed and built a fully responsive personal portfolio website to showcase projects, technical skills, and competitive programming achievements.
- Implemented smooth scroll animations, an animated skills section, and an interactive, structured project showcase.
- Integrated direct links to GitHub, LinkedIn, LeetCode, Codeforces, and CodeChef profiles, along with a downloadable resume and a functional contact form.

YouTube Clone | *React.js, JavaScript, CSS*

March 2026

- Built a YouTube-inspired video streaming interface using React.js, replicating core UI and functionality of the platform.
- Implemented a dynamic search feature to filter and display videos based on user input.
- Developed a responsive video playback interface with a thumbnail grid layout for browsing content.

Amazon Clone | *React.js, JavaScript, CSS*

June 2026

- Developed an Amazon-inspired e-commerce web application using React.js, replicating key platform features and UI structure.
- Implemented a user authentication (login) system to manage user sessions.
- Built a dynamic product listing page to display items in a structured, browsable layout.

Technical Skills

Languages: C/C++, Python, JavaScript, SQL

Web Technologies: HTML, CSS, React.js

CS Fundamentals: DBMS, Computer Networks

Development Tools: Git, GitHub, VS Code

Achievements

Academic Performance

Scored **90.7%** in Class X and **85.6%** in Class XII, **95.6%**ile in JEE Mains.
